BETTER LIFE WITH

AB-IMMUNO[®]

A unique formula of probiotics, vitamins and minerals to support the immune system and improve overall health status

It's almost 2 years since the first COVID-19 case emerged. Since then, our lives have changed drastically into new norms.

It's no surprise, every one of us desires the pre-COVID-19 lifestyle, freedom to travel, freedom to socialise. Even the very norm of our culture like a handshake, we need to avoid that now.

HUMAN ARE SOCIABLE CREATURES

What would you most likely do when the COVID-19 situations eases up?

- **Travelling!** I would love to take a flight to my favourite destinations such as Bangkok and Bali!
- **Reunions!** It would be nice to be able to visit my family back in my hometown.
- **Interactions!** I want to be able to go back to school/work to have real-life, face-to-face contact with the people in my life.

BUT WE NEED TO FACE THE REALITY

As much as we want things to be different, the reality that the pandemic is still very much with us.

It is critical at this time that we do what we can to fight the invisible invasion of the COVID-19 virus, for the sake of our family and community.

VACCINE IS NOT A PASSPORT

While it is important to get vaccinated, we have to remember the infections can still happen.

Viruses still mutate, different strain can appear from time to time.

So what should we do?

THE SOURCE OF OUR IMMUNE SYSTEM

Do you know that our gut host 70% ~ 80% of our immune cells?

We can enhance and boost that immune system by maintaining or improving the number of good bacteria that exist in our gut.

Clinically studied bacteria that are proven beneficial to human health are called **probiotics**.

AB-IMMUNO™ PLUS PROBITOICS + VITAMINS

AB-IMMUNO™ PLUS is a probiotic, that has clinically shown to strengthen the immunity of those who are already vaccinated, even in the elderly above 65 years old!

It has added multivitamins and minerals, all bacteria fighting elements packed in just 1 capsule a day.

It is also recognised by EFSA!
